

DIY RECTANGLE SCRATCHERS!

Materials:

- Cardboard boxes
- Masking or duct tape
- Scissors, a pencil and a ruler
- Scrap paper, markers, felt or fabric

Instructions:

1. Disassemble the boxes so you have flat pieces of cardboard.
2. Lay down the cardboard on a surface. Measure two inches, make a mark, and continue this down the top of the box.
3. Once your lines are plotted, use your ruler and scissors to cut out the pieces.
4. Apply glue to each strip, and start laying them together one by one. You want to stack them on top of each other.
5. Let the glue dry. You can set something heavy (like books) on top.
6. Trace onto scrap paper, fabric or felt and cut out the rectangle. Tape or glue to the bottom, if you choose to put catnip in it now it won't slip out!
7. Decorating time! Cut pretty paper/fabric, draw, & wrap it around the outside.
