DIY OCTOPUS DOG TOYS

Materials:

- Old t-shirt or fabric
- Scissors
- Tennis Ball

Instructions:

1. Cut long strips from the old t-shirt. Strips should be around 4 inches wide and 2 feet long.
2. Wrap one strip around the ball and tie it underneath. Tie a second strip perpendicular to the first one as shown below. (You can use as many strips as you would like.)
3. Take three of the strips and braid them very tightly. Do this with all of the strips of fabric. (You may need to cut strips apart into more strips, depending on how many braids you want to make.)
4. Finish the braids by wrapping one of the strips all the way around the others and ticking it into itself. Pull tight.
5. You can decorate the “face” of the octopus with fabric markers!
