

CATNIP PILLOWS!

Materials:

- Fabric
- Stuffing
- Dried Catnip
- Scissors
- A sewing machine/thread and needle

Instructions:

1. Cut out your material. A good size is 3 inches by 3 inches. You can change this to make it bigger or smaller.
2. Next, lay the pieces out with the wrong-sides facing out. Sew three of the four edges - leaving one edge completely open for stuffing.
3. Turn it right-side out and take your stuffing and fill it up.
4. Add a teaspoon of dried catnip and massage it to distribute and mix it throughout the filling.
5. Sew the final edge up to complete the pillow!
